DEUTZ-FAHR

5&6 SERIES TRACTORS

AHEAD OF THE GAME. YEAR AFTER YEAR.

The goal of DEUTZ-FAHR is to supply farmers and contractors with state-of-the-art machines that facilitate work and maximise productivity. This German brand offers a full range of tractors with contemporary style, high levels of comfort, modern powerful engines and forward thinking features.

FEATURES

- 110-212 HP fuel efficient DEUTZ turbo charged intercooled engines
- Simple manual gear shift to most advanced Powershift Sense Shift and TTV transmissions
- Integrated front Hitch & PTO
- 50 Km/h - Maximum speed with minimal engine rpm saves fuel
- Powerful 4-wheel disc braking
- Broad cab configuration options with all round visibility
- Two years or 2,000 hours standard warranty

WACKER NEUSON WHEEL LOADERS

THE ULTIMATE SNOW REMOVAL MACHINE.

Articulated and all wheel steer loaders are an economical choice for snow removal given their year round versatile material handling and landscaping capabilities. Wheel loaders can offer up to 30-percent fuel savings and up to 75-percent reduction in tire wear versus skid steers. Winter models available with snow tires and rear hydraulics for additional attachments such as salters.

FEATURES

- Powerful range of models with high lift capacity
- Optional telescopic boom for increased reach
- Narrow and low profile models designed for snow removal on sidewalk and narrow walkways
- High Flow options for increased versatility of attachments
- Comfortable to operate with excellent visibility
- Ease of maintenance with tiltable cab and accessible components
- 24 months / 2000 hours bumper to bumper warranty

ATTACHMENTS FOR ALL YOUR SNOW REMOVAL NEEDS

RMEC Inc

The newly designed towable single axle drop spreader is developed and produced in Canada and is built from the ground up by Ottawa based RMEC Inc. Bringing to the snow removal industry time saving and client requested features, the drop spreader is built heavy duty to handle municipal level demands and performance.

MK Martin Enterprise Inc

MK Martin Enterprise Inc was established in 1969 and manufacturing quality Canadian made equipment for over 45 years. Our snow blower products and reputation for quality are distributed throughout North America

HLA Snow

For the last 20 years HLA Snow has been committed to providing customers with innovative equipment. With a comprehensive line up of snow and ice management tools, HLA Snow has the right blade, bucket, or spreader for your operations. HLA Snow products are engineered and field tested by a dedicated staff. They bear the cold and scrape their knuckles in real world environments to ensure that when you receive your HLA product, it performs as promised. On those cold dark nights when the snow won't stop falling, you can stay in the cab and rest easy because it's an HLA.
